## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 22 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The phrase "support shell and vertically extending members are formed integrally" appears in claim 1 already.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 8-10, 14, 16, 18-21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Barvaeus. Barvaeus shows the use of a shell (3) having a plurality of vertically extending members (2) integrally formed (when assembled) therein mounted on a frame (1), which has a top and bottom and a central opening therein (see Figure 1). Barvaeus further shows that the vertically extending members are adjustable by moving a bottom portion thereof upwardly. (see Figure 3).
